

IN THE SPECIFICATION

Page 6, second line from the top of the page, please correct:

magnesium and/or aluminum silicates. Preferred of this group are thixotropic minigels, e.g. Mg silicate, e.g. ~~MinuGel G-35 and Minugel AR~~ **MINUGEL™ G-35 and MINUGEL™ AR**. Attapulgite and montmorillonite clays, as well as mixtures of the above, are also suitably employed as component (d) in the present composition.

Page 9, in the Table please correct:

COMPONENT	Wt. %
1. 100% non-blown asphalt at about 420 F.	63.94
2. 50/50 % mixture of naphtha/xylene <del>Kwik Dri 66*</del> <b><u>(KWIK DRI™ 66)*</u></b>	18.46
Mineral Spirits	4.5
3. Isodecyloxy <del>mine</del> <b><u>amino</u></b> acetate <del>(Pa-14)</del> <b><u>(PA-14)</u></b>	2.1
4. Magnesium silicate <del>(Minugel 35)</del> <b><u>(MINUGEL™ 35)</u></b>	0.5
5. Cellulose fiber	6.5
5. Cellulose fiber	2.0

\* Stoddard solvent
